

HDClone Enterprise Edition now available

MUNICH – 03. July 2007 – Miray Software presents the Enterprise Edition of the HDClone series as a new product. It offers a high copy capacity of up to 1 GB/sec, which means an extraordinary time gain in all application areas. Still, the Enterprise Edition is mainly designed for mass copying of storage media.

There are different licences for 4-target, 8-target or 16-target copies available. Also, the Free Edition stands by for a free download on our webpage at <http://www.miray.de/download/sat.hdclone.html>. The high copy capacity of up to 1 GB/sec can be tested with the integrated hard disk set speed test of the Enterprise Edition on every PC.

The Enterprise Edition is now obtainable on the homepage of Miray Software (<http://www.miray.de/order/sat.hdclone.html>). Prices vary from 299 euros to 799 euros per licence. It allows for the creation of an unlimited number of copies on one computer in one location. For service providers one licence per technician is necessary. Further information about HDClone can be found on the product homepage at <http://www.miray.de/products/sat.hdclone.html>.
